COOLABUNIA MARKET REPORT 7TH MARCH 2017

The Coolabunia combined agents sold 350 head at the fortnightly prime and store sale. In spite of some rain around the district the market eased for all descriptions. This is because producers are unsure of the rain we may get in the near future and the grass growing season is coming to an end. If we were to get good rain wide spread I think the market would improve for store cattle. The export rates have come down and the meat works are saying they are paying too much for the cattle. If the world prices do not improve the export prices may slip further. In all this the prices are still very good for the producer.
